

STUDENTS
ACHIEVEMENTS

Our department students participated with outstanding performance by Anti-Drug committee vetre program on 04.12.2024

National Science day organized by our Department on 28.02.2025 our students participated with their students

Our students of III B.Sc PHYSICS has participated in the 5 days skill development training program on “Operation and Maintenance of Analytical Instruments” from 02.09.2024 to 06.09.2024 at CECRI, Karaikudi.

Our students participated in an internship on laser cutting technology, where they learned about the principles, components, and operation of laser cutting machines. The training provided hands on experience in setting parameters, designing patterns, and ensuring safety during operation. This program enhanced their technical knowledge and practical skills for future applications in manufacturing.

Industrial visit for the III year students was organized by Department of physics 27th August 2024. The students visited the ISRO Mahendragiri. INDUSTRY VISITED:-ISRO Propulsion Complex, ISRO, Department of Space, Mahendragiri, Tirunelveli District, Tamil Nadu - 627 133.

The International conference on Advances in smart materials (ICASMs-2024) was held on Saraswathi Narayanan college at Madurai. The students from department of physics has participated in the international conference at Madurai in Saraswathi Narayanan college.

our II Physics students presented in the poster presentation on 10th september 2024.

On behalf of the department of Physics, VETRE (Velumanonian's Empowerment Training and Reachout programme for Education) was conducted at S.P.A Girls Government Higher Secondary School, Rameshwaram on 09.02.2024. The aim of this program is to promote awareness on the Revolutionary approaches in physics. Students of our department also empowered the higher secondary school students with insights and information for making informed career choices. The session ends with informing students about various helpful tools available on online regarding Revolutionary approaches.

“STRIVE NOT TO BE A SUCCESS, BUT RATHER TO BE OF VALUE”

A science expo {SCI-PHY 23} was held on 11.10.2023 behalf of department of physics Velumanoharan college of Arts and science for women. The chairman, secretary, principal, faculties and students of the college participated in it. The main event was inaugurated by the special guest Dr. J. Daniel Chellappa Eminent nuclear scientist Chennai who inaugurated the exhibition and lighting the candle. The students explained all the space related models they had made also, the special guest asked the students questions related to the models, and then he also explained many information related to the expo. He also look important information about the purpose of sending Chandrayaan 3 to India, its operations and expected objectives. All the information given by him was very useful and could encourage more and more interest in science among the students. Students from other department participated in this exhibition with interest.
